RESPIRATORY PROTECTION

MicroMaXX

[Short-Duration Compressed-Air Breathing Apparatus for Work and Rescue]

The brand new short-duration SCBA MicroMaXX is amazingly flexible, light and thus convenient for all sorts of activities associated with work and rescue. MicroMaXX is approved according to EN 137.

Ready for use

Made up of a compact pressure reducer, a 3 litre composite cylinder, for a service time of approx. 18 minutes, the rugged demand valve AutoMaXX[®]-N, a convenient multi-pass harness with integrated softbag, plus a full face mask MicroMaXX is always ready for use.

Choose either the novel mask Advantage 3000 or the world-wide proven mask 3S.

The innovative demand valve AutoMaXX[®]-N can be disconnected, e.g. for testing. Its maintenance requirements are extremely low, for instance it does not even need any lubrication.

If MicroMaXX is carried but not used, the demand valve and mask are stowed in the water spray protected bag. Moreover, the complete appliance can be kept in an optional storing bag, in a release holder on a wall or in a vehicle.

Flexible

MicroMaXX has a multi-pass harness which permits three different carrying modes. The carrying modes can be switched quickly and easily.

The functional hip carrying mode:

For those applications where there is enough space to move around.

The classic backpack mode:

If for instance the hip carrying mode is unsuitable due to wearing a tool belt, backpack-style shoulder carrying loops are easily made.

The practical carrying mode between the knees:

For example on entering a narrow shaft or sewers the MicroMaXX with one adjustment can be lowered from the hip carrying mode down to the knees.

Light

With 4,95 kg [ready for use] MicroMaXX is extremely low weight and does not burden the user at all. It is probably the lightest breathing apparatus for work available.

Technical Details

Approval	EN 137
Weight [ready for use]	4.95 kg
Length	540 mm
Warning signal at	70 bar
Composite cylinder	3 l, 300 bar

PORTABLE INSTRUMENT

ORION^{plus}

[The handiest 5-Gas Detector for the Toughest Requirements]

Small, handy and reliable – it is probably the most practical 5-gas detector on the market today. ORION^{plus} is approved according to ATEX: II 2G EEx ia d e IIC T3/T4.

Dependable Sensors

The IR-CO₂ sensor is the highlight of this portable instrument. But the measurement of Ex, O₂, CO and H₂S is also a feature due to the high quality MSA always provides.

Great Display

ORION^{plus} has the largest fully graphic LCD of its kind. With high level contrast and bright, homogeneous background lighting all 5 channels are shown simultaneously at a single glance.

Tough but Compact

Easy single-handed operation, and the rugged make, will leave you with nothing more to wish for.

Ordering Informations

Ex/Ox/CO/H₂S/CO₂, NiMH

10046095 ORION^{plus} P,
Ex/Ox/CO/CO₂, NiMH

10046096 ORION^{plus} P,
Ex/Ox/H₂S/CO₂, NiMH

Further versions, sensors and accessories on request.
For detailed informations please see the leaflet: 08-170.2

HAND PROTECTION

UNIPLAST

[The Ultimate Protection for the Hardest Applications]

The MSA UNIPLAST chemical protective gloves protect the hands from dirt and aggressive chemicals. The strong material also protects against some mechanical impacts. The MSA UNIPLAST are used for handling water or liquid waste, fatty or greasy materials, acids, to prevent injury to the hands.

Approval according to EN 374-1, EN 374-2, EN 374-3, EN 388, EN 420.

Ordering Informations

With gauntled, fully coated, pair

D6177826 UNIPLAST, 28 cm, size 10

D6177843 UNIPLAST, 35 cm, size 9

D6177834 UNIPLAST, 60 cm, size 10

With knit wrist, fully coated, pair

D6177825 UNIPLAST, 25 cm, size 10/9

Further versions available.

For detailed informations please see the leaflet: 13-501.2

EYE PROTECTION

PERSPECTA Series

[Sight and Safety in Perspective]

The MSA PERSPECTA range of safety spectacles and goggles offers designs that combine fashion and comfort with function.

Made with the best optical quality lenses [class 1], and a variety of colors & coating options, they protect you against dust, flying particles, liquid splashes, glare or UV radiations.

Request more information on our latest models.

One of them is PERSPECTA 9000, an incredibly light, resilient safety eyewear with revolutionary hard & soft material co-injected temple for improved comfort.

All approved according to EN 166 and according to type: EN 170 UV filters and EN 172: sun glare filters for industrial use.

Ordering Informations

10045516 PERSPECTA 9000, clear lens + anti scratch

10045517 PERSPECTA 9000, clear lens + anti fog

10045518 PERSPECTA 9000, smoke lens + anti fog

10045519 PERSPECTA 9000, amber lens + anti fog

10045640 PERSPECTA 9000, blue mirror lens

For detailed informations please see the leaflet: 03-030.2

HEAD PROTECTION

V-Gard

[The Safety Helmet of Choice]

The popular V-Gard design in a high density polyethylene shell. Certified to EN 397 and meeting optional requirements for electrical insulation and very low temperature.

Customized

V-Gard accepts the full range of MSA safety helmet accessories and is available in high visibility fluorescent orange as well as in six other colours, most of them in two sizes.

Practical Harnesses

Fas-Trac harness with quick action ratchet wheel adjustment for the ultimate in safety helmet comfort. Staz-On harness has a slide adjustment designed for added stability.

Ordering Informations
