

MSA Protective Eyewear

A sensitive organ we need to protect

“At a glance” our eyes capture very quickly all kinds of information. They are essential for many tasks like reading or driving and can improve the quality of our lives.

In countless working areas there are hazards that can cause severe damage to human vision within a split-second. Possible consequences of such an accident range from a simple temporary irritation up to total loss of sight. Therefore, in European labour legislation and across virtually all industries visual protection has become a major concern.

Risk awareness – things to consider

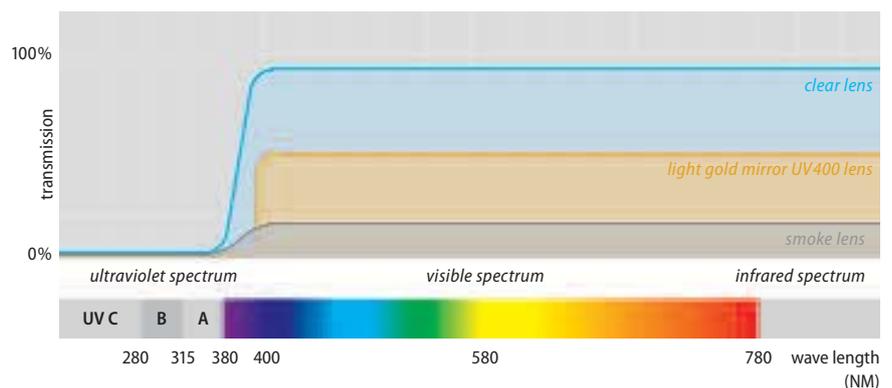

Most injuries are caused by exposure to mechanical (e.g. particles and metal fragments) or chemical hazards, to harmful radiation or a combination of these and other hazards. Anyone working in or passing through such areas that pose eye hazards should wear appropriate protective eyewear at such times.

The vast majority of eye injuries are preventable if appropriate eyewear is available and worn consistently. Protective eyewear that is ergonomic, comfortable and adapts well to the individual style and preferences should be worn.

Invisible risks – radiation

All MSA lenses fully absorb UV radiation, e.g. by sunlight, which even at low level exposure over a long period can cause chronic damage to the cornea and centre of the eye.

Light spectrum/lens shades

Some selection criteria

In addition to national and/or local standards, a proper workplace analysis needs to consider some of the following factors:

- type of hazards at the workplace
- frequency of use at the workplace
- influence by/on other workplaces
- required colour recognition
- optical capacity of worker
- use of other PPE (compatibility), like e.g. hard hats, filtering facepieces, half masks, ear muffs

A comprehensive range of eyewear

For decades MSA has offered a comprehensive range of high quality safety spectacles and goggles. MSA eyewear makes you feel great, combining reliable function with outstanding comfort and the latest fashionable styles.

	Features	Benefits
All round protection	High impact resistant lenses and frames	Meeting and exceeding EN 166
	Soft, non-slipping nose bridges and temple ends (spectacles) or headbands (goggles)	Safe fit on the face
	Snug, gap-free fit, adapting to shape of wearer's face	Feeling of protection
	Variety of designs, coatings and spectacle lens tinting	Adaptation to individual application needs
	Practical cleaning solutions and spectacle storage cases	Accessories ensure availability
High wearer acceptability	Lightweight designs for continuous use	Comfortable
	Fashionable and functional designs	Attractive
Excellent price-performance ratio	Full range (covering different levels of comfort and protection)	Product offering adapted to needs and preferences

Key to product selection

Be it for occasional or everyday use, the MSA eyewear range offers affordable solutions at three performance levels, made to suit various needs:

- ★ Best safety and basic comfort features at the most economical prices
- ★★ Best safety, special ergonomic and comfort features for professional use in attractive styles
- ★★★ Superior safety performance, outstanding comfort and exclusive style, additional accessories

Ergonomic and comfortable

All MSA spectacles are feather light and sit comfortably on the face, even after hours of use. Ergonomic design features increase the safety of the wearer and their sense of reassurance.

	Soft/flexible temples	Soft co-injected materials significantly increase wearer comfort and safety as the spectacles remains always in a perfect position
	Length adjustment	Perfect adjustment to individual headsize for a perfect fit and universal use.
	Lens/temple inclination	Easy-to-use ratchet system. Adaptation to individual face shapes to ensure gap-free all-around protection.

Versatile and valuable

The variety of lens shades cover virtually all industrial applications. The following coating options protect your lenses from the daily risk of scratching and ensure good vision even at increased humidity or temperature changes. Also recommended for use with filtering facepieces.

MSA coatings

	TuffStuff	Excellent service time enhancing anti-scratch coating according to EN 166	■ ■	■	■ ■
	Sightgard	MSA's popular anti-fog coating with good anti-scratch properties	■	■	■ ■
	OptiRock 4X	MSA's durable high performance anti-fog coating with outstanding anti-scratch properties according to EN 166	■ ■	■ ■	■ ■

■ good ■ excellent

Anti-scratch
Self sealing mechanism avoids scratching and enhances service time of lens to reduce cost.

Anti-fog
Surface treatment prevents fogging up of lens. Having always a clear view, even in humid environments, helps prevent accidents.

Anti-static
Dust repellent surface treatment to reduce need for cleaning.

Anti-UV
Absorbs more than 99.9% of harmful ultraviolet radiation preventing long term damage to the eye.

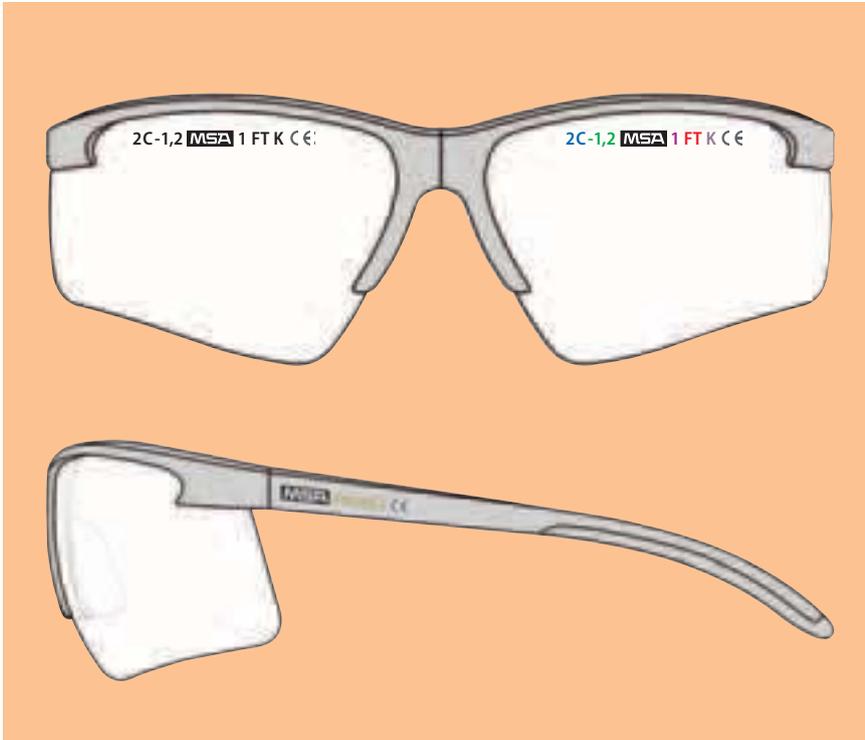

Lens colours

Lens colour	Filter	Special use	Luminous transmittance	UV filter
Clear	2C-1.2	Most popular lens for indoor/general use	92%	99.9%
Amber	2-1.2	Contrast enhancement (quality inspection), low light environments (night shift)	86%	99.9%
Light gold mirror	5-1.7	Changing light conditions, driving, premium UV filter	55%	UV 400
Blue purple	5-2	Contrast enhancement in outdoor activities	34%	99.9%
Smoke	5-2.5	Most popular sun glare filter	18%	99.9%
Blue mirror	5-2.5	Modern antiglare filter for outdoor activities	19%	99.9%
Silver mirror	5-2.5	Modern antiglare filter for outdoor activities	21%	99.9%
Darkbrown	5-2.5	Enhanced outdoor vision	25%	99.9%
Rainbow mirror	5-3.1	Strong and stylish antiglare filter	13%	99.9%

UV filters

UV 400	Premium protection from UV radiation. Blocks 100% of harmful UV light. Recommended when working in an environment that has high levels of UV radiation.
UV Radiation	All lenses filter out 99.9% of UV radiation.

Lens and frame marking

Filter class

- 2 Ultra violet radiation
- 2C Ultra violet radiation with enhanced colour recognition
- 5 Sunglare filter without infrared specification

Scale number

Increases with decreasing luminous transmittance of lens

Manufacturer

Optical class

All MSA protective eyewear is designed for permanent wear (class 1).

Resistance to impact

- S Increased robustness
- F High speed particles with low energy impact (45 m/s)
- B High speed particles with medium energy impact (120 m/s)
- T Additional resistance at extreme temperatures (-5 and 55°C)

Resistance to

- N Distorted vision due to lens fogging
- K Surface damage by fine particles

Protection against (only for goggles)

- 3 Liquid droplets and splash
- 4 Large dust particles
- 5 Gas and fine dust particles <5 µm
- 9 Molten Metal

Certification mark

Standard

Approvals

All models are CE marked and meet or exceed the requirements of EN 166 and according to type EN 170 and 172. A wide selection of models is certified to GOST standards.

Accessories

Practical accessories allow you to keep your safety spectacles in constant easy reach and to maintain them in good condition. For details please see page 13.

Our selection guide on page 14 will help you to find MSA eyewear that meets your needs.

New MSA Collection

Alternator

Adaptable to each application

Basic version without inserts

Dust inserts vented & unvented

Practical storage case for spectacle, foam inserts & spare lenses available as accessory

Stylish two-colour frame

Vented temples with good lateral protection

Vented & non-vented dust inserts available as accessory

Exchangeable lenses

Racers

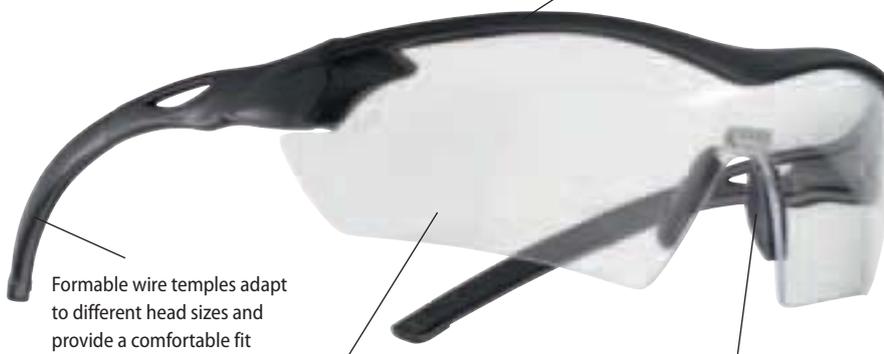

Utmost impact protection in the best style

Exclusive nose bridge design

Comes with soft bag and cord

Dynamic frame design, available in black or with silver/red surface finish combined with a stylish red rainbow mirror lens

Formable wire temples adapt to different head sizes and provide a comfortable fit

Very high impact resistant single lens, compliant to MIL-V-43511C clause 3.5.10. and MIL-PRF-31013 clause 3.5.1.1 (198 m/s)

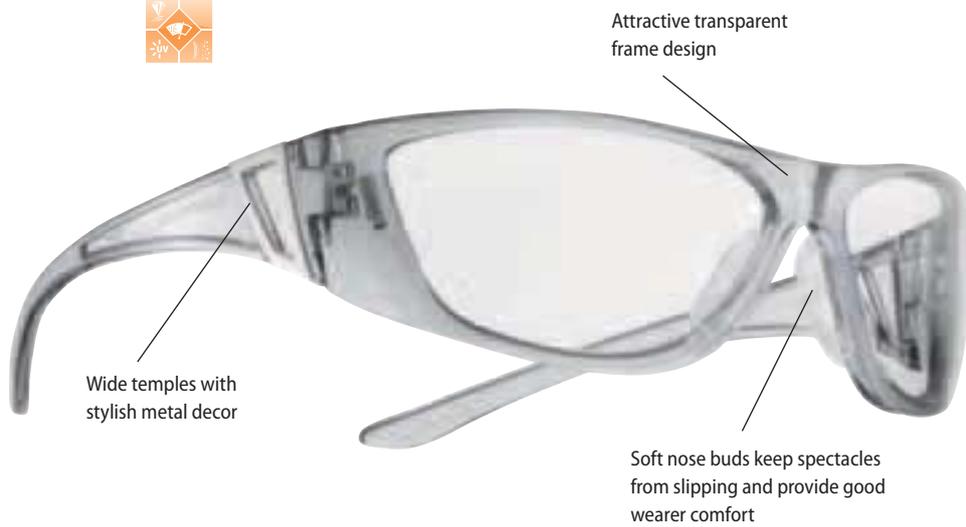

Adjustable soft nose buds for perfect fit also on different nose shapes

New MSA Collection

Metropol

Safety eyewear with a touch of elegance

Elegant metal decor

Milan

Extravagant sunglasses for outdoor work

Stylish frame design

New MSA Collection

Altimeter

Hybrid design for universal use

Ventilation holes

Comes with a split headband & a set of temples

18 large ventilation slits ensure a comfortable and airy fit

Soft frame for complete eye enclosure and superior shock absorption

Angle adjustable ratchet to use with flexible headband or length adjustable soft temples

ChemPro

Fresh look, soft fit and complete protection

"Soft touch" body that adapts perfectly to the face

Comfortable headband with length adjustment

Easily changeable lenses, available as spare part

Sightgard coated lens provides resistance to impact at extremes of temperature and protects against molten metal splash

Indirect ventilation allows air movement whilst protecting against splash and coarse dust

PERSPECTA Comfort Line

PERSPECTA 1320

Multi-adjustable, for universal use

Attractive and lightweight (29 g) semi-frame design

3 positions ratchet for lens inclination adjustment and 3 positions for temple length adjustment

Also available with blue purple tinted lens for enhanced contrast in outdoor activities

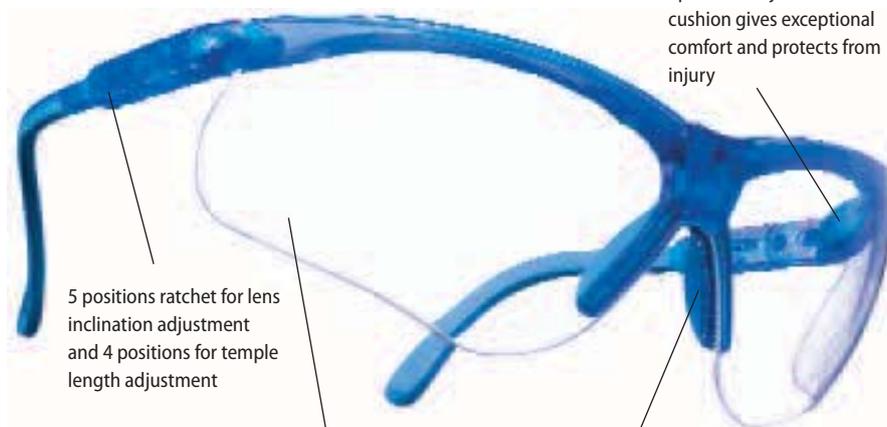

Soft nose buds and temple ends keep spectacles from slipping and provide good wearer comfort

Full wrap around with 9.75 curved polycarbonate lens provides an undistorted 180° view

PERSPECTA 010

Hi-tech style with ultimate protection

Special co-injected brow cushion gives exceptional comfort and protects from injury

5 positions ratchet for lens inclination adjustment and 4 positions for temple length adjustment

Full wrap around with 9 curved polycarbonate lenses provides more coverage, without the distraction of seams or traditional type side shields

Special co-material nose cushion, integral to nose bridge and frame secures the glasses to your face without slipping, like providing a pillow soft fit

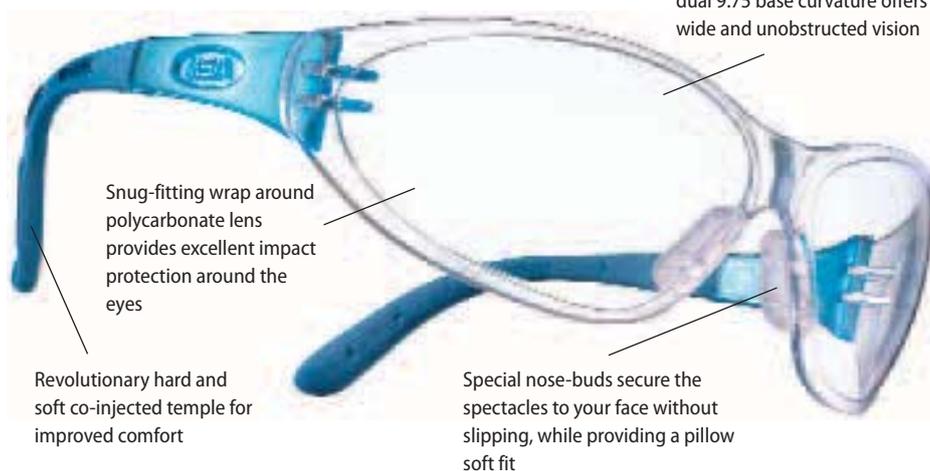

Co-injected brow bar provides cushion fit and allows air exchange

PERSPECTA Comfort Line

PERSPECTA 9000

Extremely lightweight and snug-fitting

PERSPECTA 1900

Stylish and lightweight panoramic view design

PERSPECTA Comfort Line

PERSPECTA 2320

The premium solution for outdoor activities

Includes a practical rigid case to store and carry your spectacles

3-position-ratchet for temple length adjustment allows perfect face adaptation

Highly scratch-resistant silver-mirror lens with antifog coating

Soft nose buds and temple ends keep spectacles from slipping and provide good wearer comfort

Attractive frame design with high value glossy surface finish

PERSPECTA GIV 2300

A new dimension in style and comfort

Flexible body that adapts perfectly to the individual contours of the face

Panorama antifog lens, impact-resistant at extreme temperatures

Comfortable headband with length adjustment

11 indirect air vents provide good circulation while protecting against splash and dust

PERSPECTA Classic Line

PERSPECTA 1070

"Classic" wrap-around single lens spectacles, incorporating side shields, which can also be worn over most prescription spectacles. The arms of these spectacles have 5 length adjustments and also pivot at the temple for a perfect fit.

PERSPECTA FL250

The lightweight in the range at only 25 g. Sleek, single lens, "cat's eye" spectacles giving a close fit that is especially suited to smaller faces. The low profile design has very smooth surfaces.

PERSPECTA 2047W

Offering all round protection, these stylish single lens spectacles with vented side shields, are ideal for visitors and regular wearers alike. Fit over most prescription eyewear.

PERSPECTA GH 3001

Comfortable goggles with indirect ventilation. Suitable for laboratory workers due to their high protection class.

PERSPECTA GV 1000

Lightweight and economical goggles with direct ventilation for basic use. Also suitable for arts and crafts hobbyists and general DIY use.

Cleaning & antimist solutions

Remove stains from oil or grease. klar-pilot gel or spray is spread on lenses to prevent their misting up. Suitable for lenses of totally encapsulating suits, full face masks, safety spectacles and goggles.

Ordering Information

GA1616	klar-pilot gel, 25 ml bottle
10032164	klar-pilot fluid, 100 ml spray
10104680	Wet lens cleaning towelettes (100 pcs)
D8241079	Cleaning spray bottle, 110 ml
D8133039	Wiping tissues, replacement pack (280 sheets)

Spare lenses

Economical solution to enhance service life of spectacles in case lenses need to be replaced (e.g. when scratched).

Ordering Information (pack of 12)

10104667	Alternator spare lenses, clear, Sightgard coating
10104668	Alternator spare lenses, clear, OptiRock 4X coating
10104672	ChemPro spare lens, clear, Sightgard coating
10104673	ChemPro spare lens, clear, OptiRock 4X coating

Cords

Black neck cord with adjustable ends, fits all spectacles.

Ordering Information (pack of 12)

10058135	PERSPECTA cord
10104679	Slip-on cord

Foam inserts

Absorb impacts (vented insert) and prevent intrusion of coarse dust (non-vented insert).

Ordering Information (pack of 12)

10104663	Alternator vented impact foam insert
10104664	Alternator non-vented soft cushion insert

Cases

Practical spectacle cases, available in soft or rigid material. With zipper, velcro belt and hook, fit all spectacles.

Ordering Information

10058134	PERSPECTA Soft case (pack of 12, carton of 10 packs)
10081939	PERSPECTA Hard case (pack of 6, carton of 15 packs)
10104677	Soft bag (pack of 12, carton of 10 packs)
10104665	Storage case for spectacle, foam inserts, spare lenses (pack of 6, carton of 10 packs)

Value pack

Practical value pack for Alternator, including spectacle storage case, spectacles (with I/O lens), foam inserts, bag for spare lenses, cord and soft bag.

Ordering Information

10104666	Alternator value pack (pack of 6, carton of 10 packs)
----------	---

Displays

Attractive and compact stand-alone desktop displays for the complete range of MSA protective eyewear. Grey painted robust metal structure with plastic elements. Stationary display MINI 5 for up to 5 spectacles/goggles. Rotatable display MAXI 20 for up to 20 spectacles/goggles.

Ordering Information

10085093	Display MINI 5 (15 x 48 cm)
10085094	Display MAXI 20 (18 x 72 cm)
