

All-in-one design with IP66 compliant weatherproof housing and metal fittings. A highly sensitive camera that enables 24-hour surveillance with superior picture quality, its versatility allows installation almost anywhere. In addition to its superior horizontal resolution of 520 TV lines, it also features AF zoom and SSP communication.

picture quality, its versatility allows installation almost anywhere. In addition to its superior horizontal resolution of 520 TV lines, it also features AF zoom and SSP communication.

All-in-one design weatherproof camera

Integrated unit for easy installation

An all-in-one package with auto-focus camera, lens, weatherproof housing, wall-mount fittings, and even a shade. Installation of the shade is optional and up to the user depending on the environment. Without the shade, the camera is very compact and all you need to do is set it up with system devices of your choice. No other accessory needed.

Adjustable Arm

The angle of the arm is adjustable in all directions. Since the flexible joint is secured by screws, the arm maintains its position without sagging over time. In addition, a safety wire is included to prevent accidents. Installation on a ceiling or wall is easy without any additional parts, and installation on a pole or a room corner of walls is also possible with a separately sold bracket. The wires are securely protected inside the arm.

520 TV Lines

Horizontal Resolution of 520 TV Lines and zoom capability

By adopting a proprietary DSP circuit based on a unique algorithm, the camera produces natural colours, clear and crisp contours without smears. The fine picture of 520 TV lines of horizontal resolution, plus the zoom function, allow secure surveillance of small subjects.

Max. 352x Zoom

22x Optical Zoom and 16x Digital Zoom

The 22x optical zoom and 16x digital zoom produce a combined close-up effect of 352x. This makes it possible to monitor details of even a far-off subject, allowing one camera to monitor a wide area.

Day and Night

Intelligent switching from colour to B/W

Selecting colour or B/W mode can be done automatically by the camera, or else manually. In addition, the user is allowed to change the switchover point from 1 to 10 lx (nominal) using the on-screen menu. The integration of colour and high sensitivity B/W modes in one camera makes it a versatile tool for any surveillance need. It is truly an all-in-one camera.

Switchover point

IR cut filter ON / OFF

Built-in Intelligent Digital Motion Detector and Intelligent Zoom Detector

The Intelligent Digital Motion Detector enables reliable and accurate motion detection by analyzing the "magnitude of movement" and the "size of object" from changes in picture brightness. When a moving object is detected, VCC-XZ400P can send an alarm signal to external units and/or switch the picture to 1.4x to 6x optical zoom mode. Furthermore, an external alarm input terminal makes it possible, when an alarm signal is received, to automatically zoom in to the site of activity, according to a pre-set zooming operation.

3 kinds of backlight compensation to yield best results

1) Multi-spot photometry (48-section)

The screen is divided into 48 sections on which luminous intensity is measured separately to determine the lighting/backlight conditions of all objects. This makes it possible to apply optimum backlight compensation even for peripheral objects and moving objects.

2) 5-section photometry mode setting

The screen will be divided into 5 sections to which the user will assign 15-scale weights. The brightness of the picture will be kept at optimum by giving priority to the area with the higher weight.

An example of weight setting:
Top = 1, Bottom = 5, Left = 10,
Right = 10, Center (fixed) = 15.
The size and position of the center area is adjustable.

3) Multi-spot masking system (48-section)

Certain areas can be eliminated from the photometric measurement using a 48-section grid. The light intensity for the remaining area is measured and the image brightness is adjusted accordingly.

Areas in which illuminance will not be measured

Easy Setting with an On-Screen Menu

The VCC-XZ400P's on-screen menu allows the user to change settings without touching the camera.

Built-in RS-485 Terminal

The camera comes with a RS-485 connector for SSP (SANYO Security Serial Protocol) communication. With optional system controller VSP-8000, the VCC-XZ400P can be zoomed in or out remotely.

Privacy Masking

When there is a house or even an object as small as a window within the camera frame, it is possible to mask the area so that it will not appear on the monitor screen to protect other's privacy. Up to 4 rectangular masks of arbitrary size can be set per screen. These masking areas may be protected with a four-digit (max.) password.

32x Electronic Sensitivity

The VCC-XZ400P minimum required illuminance of 0.06 lx is improved by a power of 32x by amplifying the gain. The result is that the camera can capture video images with only 0.002 lx. (F1.6, SENSE UP, B/W mode)

13 Mode Electronic Shutter Speeds

x2, x4, x8, x16, x32, 1/50, 1/120, 1/250, 1/500, 1/1000, 1/2000, 1/4000, and 1/10000 sec.

Built-in Electronic Shutter

A high-speed electronic shutter that is internally switchable for eight modes using a DIP switch allows adjustment increments from 1/50 to 1/10000 sec.

AC / DC Power Source Compatibility

VCC-XZ400P come with power supply terminals of 24 V AC and 10 to 12 V DC. Select an appropriate source, depending on the location.

Other Features

- Title display
- Adjustable gamma correction and aperture setting
- Display of assignable camera ID and titles (max. 16 characters)
- Intelligent digital motion detector
- Safety wire
- Pole mounting and Corner mounting possible with optional metal fitting

Outdoor Housing Brackets (sold separately)

Pole Mount Adaptor VA-30HA

Corner Mount Adaptor VA-30VA

NEXUSAGE

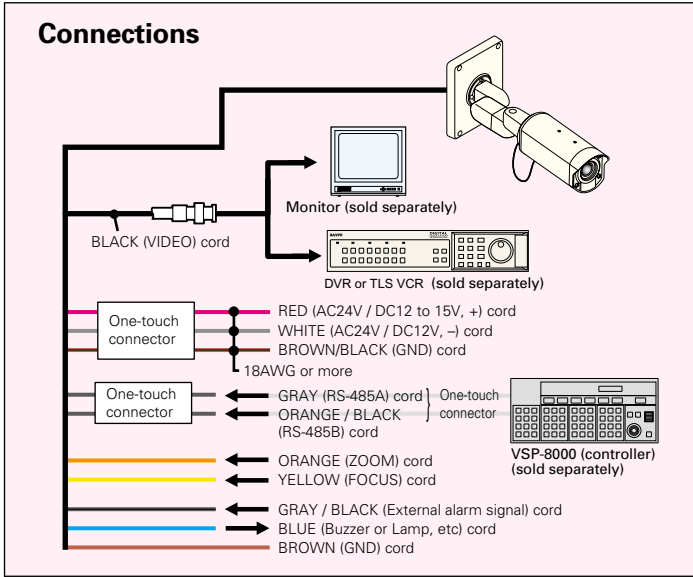

Camera Set-up Unit

VAC-70 (sold separately)

MODEL	VAC-70
Video output terminal	BNC x 1
Camera input terminal	BNC x 1
Environmental conditions	Temperature: 0°C to 40°C [32°F to 104°F], Humidity: 10 to 90%
Power requirement	3V DC, Alkali type AAA format batteries x 2
Dimensions	90(W) x 135(H) x 36(D) mm [3.54(W) x 5.32(H) x 1.42(D) in.]
Weight (approx.)	230 g [8.1 oz.]

MODEL	VCC-XZ400P
Scanning system	PAL standard 625 lines, 50 fields/sec.
Image sensor	1/4" (approx. 3.6 mm x 2.7 mm) interline transfer method CCD
Picture elements	Total: 795(H) x 596(V), Effective: 752(H) x 582(V)
Horizontal resolution	520 TV lines
Minimum illumination (approx.)	0.06 lx at max. AGC, 0.002 lx at x32 sensitivity with F1.6 lens, B/W mode 1.2 lx at max. AGC, 0.04 lx at x32 sensitivity with F1.6 lens, colour mode
Electronic sensitivity boost	AUTO / OFF — (on-screen) Up to 32x max. setting
Video output level	1.0 V (p-p) (75 Ω, composite)
Video S/N ratio	More than 50 dB (AGC OFF)
Backlight compensation	ON = Multi-spot photometry (48-section) / 5-section photometry mode setting / Multi-spot masking system (48-section) — (on-screen)
Day/Night	AUTO / COLOUR / B/W
White-balance	ATW / AWC / Manual
Gain control	OFF / -6 / ±0 / +6 / +9 / +12 / +15dB
Motion detector	ON / OFF, individual settings possible
Privacy masking	ON / OFF, max. 4 masked locations Password lock possible
Mirror image effect	Horizontally (H), vertically (V), horizontally and vertically (HV)
Electronic shutter	Fast shutter mode: 1/50, 1/120, 1/250, 1/500, 1/1000, 1/2000, 1/4000, 1/10000 sec. Slow shutter mode: x2, x4, x8, x16, x32
Light control	Auto / Manual
Lens	f = 3.6 to 79.2mm F1.6 to 3.8 auto focus
Auto-focus	Auto / Manual / One-push
Synchronizing system	Internal sync. / Line lock
V phase adjustment	LINE PHASE
Optical zoom	22x
Electronic zoom	16x
Communication	Coaxial / RS-485 (SSP)
Video signal	VIDEO OUT
External lens control	ZOOM / FOCUS, ±6 to ±12 V DC
Alarm input	1
Alarm output	1
RS-485	A, B, GND
Environmental conditions	Temperature: -20°C to 50°C [-4° to 122°F], (with power source connected) Humidity: within 90% RH
Power requirement	24V AC, 50 Hz or 12 to 15 V DC
Power consumption (approx.)	4.5 W
Dimensions (approx.)	54(W) x 62(H) x 116(D) mm [2.13(W) x 2.44(H) x 4.57(D) in.]
Weight (approx.)	1.6 kg [56.4 oz.] (without sunshade) 1.8 kg [63.5 oz.] (with sunshade)
